

LocalUp Solutions Security Policy

At LocalUp Solutions, we take the storage and transmission of private data very seriously. Our security measures include:

- *SSL encryption to protect private data transmitted via the Internet*
- *Strong, standards-based encryption for sensitive data stored in our database*
- *A firewall to block unauthorized access to our servers*
- *Physical security to prevent unauthorized access to the datacenter*
- *Daily backups to guard against data loss*
- *The adoption of Payment Card Industry policies & procedures*

For detailed information about PCI Data Security Standards, please visit https://www.pcisecuritystandards.org/security_standards/pci_dss.shtml.
